PDN 153064: Product Discontinuance Notice for the Le87220 Product Family

Description of Change:

Microsemi is announcing the discontinuance of the Le87220 product family.

Reason for Discontinuance:

The decision to discontinue these products was driven by diminished demand and low forecast volumes.

Customer Impact:

These devices are being removed from Microsemi's product offering and will no longer be available for order after March 2, 2016. There is a limited inventory of these parts, so orders will be taken on a first-come, first-served basis. Please contact your local Microsemi Sales Office for information regarding conversion to alternate parts.

Product may be limited in availability. Orders will be supported on a first-come-first-serve basis. Orders for these products will be non-cancelable and non-returnable.

Replacement Parts:

There are no pin compatible replacement devices. Please contact your local Microsemi Sales Office for information on devices similar in function to these products.

Last Order Date: March 2, 2016

Please note that all orders must be booked as non-cancelable non-returnable (NCNR) by no later than March 2, 2016. No new orders will be accepted after this date. Although Microsemi will attempt to accommodate all requirements, it is highly recommended that orders be placed as far as possible in advance of the order deadline. The inventory is limited so orders will be taken on a first-come, first-served basis.

Discontinuance Notice

Last Shipment Date: September 6, 2016

Please note that Microsemi will continue to ship last-time-buy orders as requested only through September 6, 2016. Product orders must be scheduled to ship no later than this date.

Products Affected by this Discontinuance:

Le87220KQC / Le87220KQCT
