## Change of die pitch size for PMBT4403 and PMBT2907A family

### Details of this Planned Change

Change of die pitch size for PNP switching transistors PMBT4403 and PMBT2907A family in SOT23 package.
Die pitch size will be changed as follow:

Old product: Die pitch size 520µm x 520µm
Changed product: Die pitch size 400µm x 400µm

To give more product information, a new datasheet revision will be published, incl.typical graphs (not published before).

**Why do we Plan this Change**
Volume ramp-up, increase of wafer fab capacity and flexibility.

**Identification of Affected Products**
Product identification does not change

### Product Availability

**Sample Information**
Samples are available upon request

**Production**
Planned first shipment 05-Nov-2014

### Impact

no impact to the product's functionality anticipated.
**Data Sheet Revision**
A new datasheet will be issued
**Disposition of Old Products**
Existing inventory will be shipped until depleted

## Timing and Logistics

The Self Qualification Report will be ready on 04-Aug-2014.
The Final PCN is planned to be issued on: 13-Aug-2014.
Your acknowledgement of this change, conform JEDEC JESD46 D, is expected till 25-Aug-2014.

## Contact and Support

For all inquiries regarding the ePCN tool application or access issues, please contact NXP "Global Quality Support Team".

For all Quality Notification content inquiries, please contact your local NXP Sales Support team.

For specific questions on this notice or the products affected please contact our specialist directly:
**Name**                GA Customer Support
**e-mail address**      DiscrQA.Helpdesk.GA-Products@nxp.com
At NXP Semiconductors we are constantly striving to improve our product and processes to ensure they reach the highest possible Quality Standards.
Customer Focus, Passion to Win.

NXP Quality Management Team.

## About NXP Semiconductors

NXP Semiconductors N.V. (NASDAQ: NXPI) provides High Performance Mixed Signal and Standard Product solutions that leverage its leading RF, Analog, Power Management, Interface, Security and Digital Processing expertise. These innovations are used in a wide range of automotive, identification, wireless infrastructure, lighting, industrial, mobile, consumer and computing applications.

A global semiconductor company with operations in more than 25 countries, NXP posted unaudited revenue of $4.36 billion in 2012.
