ATTN: Quality/Purchasing Manager
Subject: MASW-000834-13560T datasheet specification update
PCN #: PCN-01373

The goal of MACOM is to continually deliver high quality products and services that meet our customers' needs. We strive to offer products that are industry leading in terms of performance, delivery, quality, and value.

In accordance with MACOM's customer product change policy, this communication is to inform you that MACOM is making a specification update to the part number listed below. You are receiving this notification because you have purchased this product in the past two years.

MASW-000834-13560T – Switch, High Power Broadband

Through volume measurement data taken over time it has been determined that the absolute maximum DC Reverse Voltage needs to be adjusted from 200V to 100V. The compatible driver, MADR-009150 is also being added to the datasheet. These changes are reflected in the V10 revision of the data sheet, accompanying this notification.

Please contact your local sales representative if you have any questions or require additional information.

Sincerely,

Paul Wade
Product Marketing Manager
