TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

General Product Description:
TE's program called "smart design on Silver use" for RT 2pol

Description of Changes
Thus the C/O-contacts of the 2 pole RT-series are to be modified from massive to tri-metal versions. Numerous tests have been completed and we confirm the same performance for the tri-metal contacts. As a separate and unrelated issue we have discovered a small error in the approval ratings data for the RT2 series of relays. Please see details below. To ensure traceability modified product can be identified by date code 1518 or later.
