MODULAR CONTACTS

September, 2013

Model 70AA/Male and 70AA/Female Modular Contact Packaging Improvement

The Bourns Trimpot Product Line announces a new design layout for the tube packaging of the Bourns® [Model 70AA/Male Modular Contact](#) and [70AA/Female Modular Contact](#). The improved designs provide a more secure fit and increased stability of the products during the shipping and handling process.

Model 70AA/Male

Model 70AA/Female

Implementation dates are as follows:

We will begin phasing in this process: October, 2013

Should you have any questions or need additional information, please feel free to contact [Customer Service/ Inside Sales](#) in your local region.
